DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3,4,14, are rejected under 35 U.S.C. 102(b) as being anticipated by USP 4,699,641 (Barnes, Jr.).

Barnes, Jr. discloses a container 11 including a dust chamber 15 having a closure in the form of a support tray 21 which closes the opening of chamber 15. The supporting tray 21 can be slid incrementally outward in stages from a fully closed position to a fully open position.

Response to Amendment

Applicant's argument concerning the rejection in view of GB 2372433 to Howes are persuasive and the rejection withdrawn.

Allowable Subject Matter

Claims 2,5-13, and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
